## B. To be completed by the department:

1. Please provide a summary of the purpose of this legislation (Justification Statement).

A resolution authorizing the Mayor to execute an Agreement with Precision 2000/ Catamount, a Joint Venture for FC-6333, Runway 26R Protection Erosion Control project in an amount not to exceed \$1,714,013.64.

This project involves measures to protect, preserve and maintain access to the Runway 26R Medium Intensity Approach Lighting System with Runway Alignment Indicator Lights (MALSR) Approach Lighting System and Runway Protection Zone (RPZ) as well as grading of the site to control stormwater runoff and to prevent such runoff from impacting adjacent property to the east of City owned property that is being developed by Porsche Cars North America (PCNA).

2. Please provide background information regarding this legislation.

Agreements incorporated in the sale of the subject property to the City required that the PCNA site be protected from stormwater runoff by regrading of the site and improving the appearance of the property by planting and maintaining grass at levels and standards of quality similar to that of Hartsfield-Jackson Atlanta International Airport. Fencing of the area is also required to maintain the positive separation from adjacent properties and to further restrict access to the Runway 26R MALSR Approach Lighting System.
